## Recessed Paper Towels Dispenser & Waste Receptacle

The Recessed Paper Towel Dispenser and Waste Receptacle is the solution to keep your high-traffic bathrooms stocked and clean. The smooth satin finish of our accessory can be cleaned effortlessly and displays a bright and modern aesthetic to any room. Its recessed design creates a seamless feel to your restroom and gives your users more space without the possibility of bumping into it. You'll be able to provide accessibility to a waste receptacle and paper towel dispenser in one product to everyone. The self-feeding, rounded hemmed opening allows paper towels to dispense without tearing, limiting waste, and they'll be replenished immediately. Each dispenser can hold up to 350 c-fold or 475 multifold paper towels, so you have options depending on your needs and budget. During the height of customer foot traffic, our 2-gallon leakproof waste receptacle can handle their waste with the help of two adorned stainless-steel clips that guarantee trash bags are secure while being filled. Additionally, you can feel confident your waste receptacle and paper towels are safe from theft or tampering with the durable locks located on the receptacle and door. It makes the ideal accessory for any commercial or public facility such as a hospital, office, kitchen, school, etc. Our Recessed Paper Towel Dispenser and Waste Receptacle is your practical and cost-effective solution to servicing your consumer's needs.

### FEATURES

**Design:** The rounded towel tray can hold 350 c-fold or 475 multifold paper towels.

**Cleanliness:** Its satin-finished surface is resilient to various messes and is easily sanitized.

**Capacity:** With the 2-gallon, leakproof waste container, you can handle the height of customer foot traffic.

**Efficient:** The paper towel dispenser has a hemmed opening for dispensing paper towels without tearing, limiting waste.

**Outfitted:** Stainless steel clips are located inside the receptacle to hold trash bags in place when filled.

**Durable:** Made from heavy-gauge stainless steel, ensuring longevity, and comes equipped with a cable door-swing limiter.

**Secure:** Located on the receptacle and piano-hinged door are locks that prevent tampering or vandalism.
