Total Station Accessory Kit

When you invest in premier surveying equipment, such as our Total Station, it can be cumbersome to research the necessary accessories to buy. We've made an essential accessories kit to utilize with your Total Station that includes fair priced and dependable products all in one place. Our Total Station Accessory Kit includes a Heavy-Duty Quick-Clamp Wood Fiberglass Tripod, an All-Metal Single Tilt Prism Pole Kit, an 8.5' TLV Aluminum Prism Pole and a Red Prism Pole Tripod. The Heavy-Duty Quick Clamp Wood Fiberglass Tripod has double-banded adjustable legs that can go up to 72 inches and comes with a 5/8" – 11 thread that fits most laser levels. The All-Metal Single Tilt Prism Kit is a durable prism assembly kit sealed in a resilient canister to protect it from rain or dust. It has a 0 – or -30 mm offset and a 2.5-arcsecond accuracy, guaranteeing precise readings every time. Our TLV Prism Pole features adjustable sections that extend up to 8.5 ft. Lastly, our Red Prism Pole Tripod will provide you with a stable base that adjust to 6 ft. It has replaceable spiked feet with spurs to dig into terrain and a top-loaded thumb screw head. Our Total Station Accessory Kit comes with a carrying case or built-in strap, so storage and transportation are always effortless. Our goal with this kit was to give you affordability with thoughtfully hand-picked products built to last.
