There are two holes near the top of the Back Panel (3) of your locker.

Place your locker where you want to install it. Using a pencil, mark the location of each of these holes on the wall.

Remove the locker(s) from the wall. In the marked locations, drill a hole large enough for the Wall Anchors (G) (Make sure you don't drill it too large!)

Using a Phillips screwdriver, twist each of the Wall Anchors (G) through the back of the locker and into the holes in the wall. Hand tightening is recommended; using a drill could damage the hole.
