

ADI629-DL

Digital Lock for Locker Series

Unlock the future of security with our cutting-edge Digital Lock, specially designed to complement our AdirOffice locker series. Say goodbye to traditional keys and hello to convenience and peace of mind. Designed for simplicity and versatility, our Digital Lock effortlessly replaces standard locks with a hassle-free installation process. Transform any locker into a fortress of security with a passcode of your choice, customizable up to 15 characters in length. Whether you prefer a simple PIN or a complex numeric code, the choice is yours. Our lock is powered by three AAA batteries, to ensure long-lasting performance without the need for frequent replacements. Worried about forgetting your passcode? Fear not, as our lock comes equipped with a master override feature for easy reprogramming, ensuring access is never compromised. In times of emergency, our Digital Lock offers an additional layer of assurance with its USB Type C cord hookup, allowing for quick and efficient override when necessary. Whether you've forgotten the passcode or need to override a current passcode, regaining access to the locker can go off without a hitch. Upgrade your security system today with our Digital Lock and experience unparalleled convenience, reliability, and peace of mind. Protect what matters most with the power of digital innovation.
