## 64 Gallon Square Waste Container with Wheels

Revolutionize your waste management with our 64 Gallon Square Waste Container with Wheels, designed to blend functionality with style. This container stands out with its sleek lines and vibrant color options—choose between a sophisticated black or a bold blue—to seamlessly integrate into any environment. We've engineered our trash cans for both durability and convenience offering an impressive 64-gallon capacity, which is ideal for general collection and material handling. The body is designed to be almost flush with the ground to prevent rodents from burrowing in or living underneath. It is built from top-quality materials that can handle heavy-duty use and withstand harsh weather, making it a reliable choice for residential and commercial applications.

What truly elevates this waste container is its user-friendly design. The heavy-duty 7.87-inch wheels afford easy mobility, even over your steps or curbing, while the molded-in axle retainer adds strength. With a weight capacity of 211 lbs., it can manage substantial loads effortlessly. The container features a hinged lid that fits tightly, swings back with a rotation of 270°, and locks in place to effectively contain odors and keep pests at bay. Its square shape optimizes space, and smooth surfaces ensure minimal dirt buildup, making maintenance simple. Embrace a new level of waste management efficiency with our 64-Gallon Square Waste Container—where practicality meets style for a cleaner, more organized environment.

### FEATURES

**Capacity:** The waste container offers an impressive 64-gallon capacity, ideal for general refuse collection and material handling.

**Design:** Its body is designed to be almost flush with the ground to prevent rodents from burrowing in or living underneath.
